

In-situ α -spectrometry no chemistry !

Measurement system for α -spectrometry with NIM-crate, ADC, Web-MCA, mobile PC, vacuum pump and software

Power supply from the car battery with 230V~ DC-AC converter

Good results even for thick α -samples with standard preparation :

- evaporation (liquid or digestion samples)
- incineration, ashing (organic materials)
- milling, mortaring (soil, rocks)

Spectrum analysis with our **ALPS** software
